OBJECTIVES

Aspiring software developer with experience in web development and a strong foundation in programming. Passionate about building efficient applications and improving user experience through clean, structured design.

SKILLS

Programming & Development

- C, C++, Java, Python
- HTML, CSS, JavaScript, PHP, Perl

Database & Tools

- MS SQL
- Git & GitHub
- UI/UX fundamentals

Soft Skills

- Creativity
- Logical Problem Solving
- Team Collaboration

EDUCATION QUALIFICATION

Diploma in Computer Technology & IT Infrastructure 2023 – 2026

Nettur Technical Training Foundation (NTTF)

Plus Two (1st & 2nd Year) Jun 2021 — Mar 2023

Government Higher Secondary School, Chirakkara

PROJECTS

Final Year Project: FoodFeast Food Delivery Application

- Smart FoodFeast is a mobile application that integrates online food ordering with health monitoring features. Unlike existing food delivery platforms that focus solely on ordering and delivery, this application also tracks users' calorie intake and provides personalized food recommendations based on their preferences and health goals.
 - The application is developed using Flutter for the frontend and Firebase for backend services, including user authentication and database management.
 - The primary objective of this project is to enhance user convenience while promoting healthier eating habits through an intelligent and integrated system.
-

HTML/CSS Web Projects

Online Voting System

- Developed a simple web-based voting platform allowing users to cast votes and view results.
- Implemented basic authentication and user-friendly UI using HTML, CSS, and JavaScript.

Food Preference Suggestion Webpage

- Created an interactive webpage that recommends food options based on user preferences.
 - Utilized HTML, CSS, and JavaScript for form handling and dynamic content display.
-

IoT Project: Smart Notice Board

- Built a digital notice board system for remotely posting and updating notices using IoT hardware.
- Implemented wireless data transfer and real-time display using microcontroller-based components.

CERTIFICATION

CCNA Certification
